

Environmental Policy

Our mission at Green Steering:

The development and provision of environment-friendly optimal trailer steering systems that bring financial benefits to all customers in the chain. "Green makes Money"

It is our goal to promote procedures and practices that enhance environmental protection.

Therefore, the company will

- Comply with all relevant legislation and agreements.
- Use best practice to control its impact on the environment.
- Work with both suppliers and customers to reduce the environmental impact of the industry we work in.
- Communicate and train all our employees and stakeholders of the importance to continually look at ways to improve the environment we live in.
